You may have recently received notices about changes to your Medicaid coverage. These notices told you changes to your Supplemental Security Income (SSI) benefits would cause a change in your Medicaid coverage. We also asked you to send us a Medicaid application.

We have information to help us review your Medicaid eligibility. You do not need to send a Medicaid application. We will use the information we have to confirm your eligibility. If we need more information, we will ask you for it.

Your Medicaid eligibility will continue until we have further reviewed your status. Your coverage will continue until at least Sept. 30, 2024. If you have already given us, or want to give us, an application, we will review it.
